

This is a very nice room with a King bed, en-suite bathroom and its own private balcony. Above this room is a very small loft with a queen bed. Be aware that the stairs to the loft are quite steep so we do not recommend it for young children or elderly guests.

This is the Master Bedroom with a King bed and a large walk-in bathroom. It has its own alfresco seating area in front of the room.

This is a smaller Queen room and also has a nice adjoining en-suite bathroom.

This living room can be converted into another bedroom with two twin single beds and has a loft with another set of twin single beds. This makes it a great room for single friends or teenage kids. It is the only room that doesn't have an en-suite bathroom. It does however have a private outdoor shower and basin on the adjoining balcony. The toilet is located just outside the door.

This corner room is great for couples or families with older kids. It includes an en-suite bathroom and has a King bed downstairs with another King bed and a twin single upstairs in the retreat/loft area. Be aware the stairs to the loft are quite steep.
